MVP:

Must-have:

- User
 - Sign-up/Login
 - Buying tickets
 - Select which ticket to buy
 - Payment details
 - Email confirmation
 - View available animal exhibits

Nice-to-have:

- Admin
 - Create, Update, Delete animal exhibits
 - View ticket sales

First-time flow - User:

- User signs up – redirects to the ticket page
- User chooses tickets to buy – presses submit – redirects to the payment page
- User enters payment details – presses submit – redirects to empty confirmation page
 - User gets a confirmation email
 - Has home button – redirects to the tickets page

First-time flow - Admin:

- Admin – Signs up – redirects to admin profile page that views recent ticket sales
- Admin can create, view, update or destroy animal exhibits
